### **Jamo 8A2 Outdoor Speaker Specifications**

The Indoor/Outdoor 8A2 is a 2-way speaker in the popular series of versatile models for both indoor and outdoor applications.

The Indoor/Outdoor 8A2 is the series' largest model, and is provided with an 8" woofer for rich sound. Great sonic qualities, elegant design, and a flexible mounting system characterize the models of this series. The Indoor/Outdoor 8A is available in black and white.

The series is popular in commercial installations, for examples in retail outlets. For the private household, these speakers are ideal for the patio, in the garden or by the pool - and includes the wall-mounting brackets seen here.

Available in white or black
